As an experienced cybersecurity professional with over **14 years of expertise** in the information technology and services industry, I am confident that my skills and experience align well with the requirements of this position. Throughout my career, I have led initiatives across Cloud Security, Vulnerability Management, Breach and Attack Simulation (BAS), Threat Intelligence, OSINT, and Red Teaming.

In my current role as a **Manager within Cognizant Security**, I oversee web and mobile application security testing, infrastructure penetration testing, vulnerability management, and security operations. I have successfully implemented DevSecOps practices and established standardized security processes for a team of 6 to 10 professionals. My work primarily focuses on adversary simulation, security control validation, and strengthening the organization's overall security posture through proactive assessments and defense validation techniques.

Previously, as a **Senior Consultant at Ernst & Young**, I managed vulnerability and patch management programs, secure architecture audits and reviews, and the implementation of security standards. My experience in red teaming and process standardization was instrumental in leading a team of 2 to 4 professionals and delivering high-impact security engagements.

Earlier, as a **Consultant at Deloitte**, I contributed to several high-profile projects involving Red Teaming activities, Security Audits, Vulnerability Assessments, and Executive Security Profiling. This experience provided valuable exposure to the consulting domain and honed my ability to deliver results in fast-paced, client-driven environments.

As an **Information Security Analyst at Agility E-Services**, I conducted vulnerability assessments and penetration testing for servers, networks, and web applications. I also performed database, firewall, and switch security audits, and analyzed logs and incidents for threat detection and mitigation.

During my tenure at **Tata Consultancy Services (TCS)**, I was responsible for developing and implementing complex software solutions for telecom clients, automating up to 80–90% of manual intervention tasks. Additionally, I mentored junior engineers and conducted training sessions for client teams.

I hold multiple industry-recognized certifications, including **Certified Ethical Hacker (CEH)**, **Computer Hacking Forensic Investigator (CHFI)**, and **EC-Council Certified Security Analyst (ECSA)**, and I am currently preparing for the CISSP certification. With a **Bachelor's degree in Computer Applications (BCA)**, focused on **Computer Science from NSHM Knowledge Campus, Kolkata**, I possess a solid foundation in programming, operating systems, network administration, and a wide range of security tools and methodologies.

EXPERIENCE

APRIL 2019 – TILL DATE

Manager – Cognizant Security, India

Web Application Security Testing (SAST & DAST), Mobile Application Security Testing (Android & IOS), Thin & Thick client Security Testing, Infrastructure Penetration Testing (Black/Grey & White Box), Security Standards & Security Process Implementation, DevSecOps Implementation, Vulnerability Management, Security Operations, Infrastructure Management, Red/Purple Teaming, Threat Intelligence, Threat Hunting, Malware Analysis, Breach & Attack Simulation.

Team Size – 6 to 10

APRIL 2018 – APRIL 2019

SENIOR CONSULTANT – ENTERPRISE CYBER RISK, ERNST & YOUNG, India

Vulnerability Management, Patch Management, Secure Architecture Audit & Review and Implementation, Malware Analysis, IOT Device Security Testing, Security Standards, Red Teaming & Security Process and Standards Implementations.

TEAM SIZE – 2 & 4

JUNE 2016 – DECEMBER 2017

SOLUTION ADVISOR – CYBER RISK, DELOITTE, India

Malware Analysis (Static & Dynamic), Threat Hunting, Secure Architecture Audit & review and Implementation, Vulnerability Assessment and Penetration Testing, Source Code Review, IOT Testing, Red Teaming & Security Process and Standards Implementations.

NOVEMBER 2015 – APRIL 2016

ANALYST – INFORMATION SECURITY, AGILITY E SERVICES, India

Vulnerability Assessment and Pen testing of Servers, Network, web applications, Security Auditing of Database, Firewall, Switches & Next Generation Firewall, Log and Incidents Analysis for Threat management and mitigation, Virus & Malware Analysis, Automated and Manual web application vulnerability assessment based on OWASP TOP 10, SANS & Other.

NOVEMBER 2010 – OCTOBER 2015

SYSTEM ENGINEER, TATA CONSULTANCY SERVICES, India

- MySQL/MariaDB/NoSQL/MongoDB Database Administration - Installation, Upgradation, Restoration, Database Architecture Design & Implementation.
- Network Analysis - HP BSM, UCMDB, Solar winds, HP Site scope, Detection, and Incident analysis of network/servers' issues.
- Identity Security Administration - Symantec Profiling, Automated VA assessment, Installation, Implementation of Identity security management tools.
- Network/Server Monitoring - Detection & Incident analysis of network/Servers' issues, network issues avoidance, High severity Incident reporting using SAP Reports, diskspace monitoring and analysis for issues avoidance.
- Service Delivery Excellence Award - 21st December 2012
- Best Faculty Award – July 2015

2010

SECURITY RESEARCHER TRAINER

VAPT, Malware Analysis, Raspberry Pi Workshops and Training, AKAMAI WAF, IMPERVA WAF, Docker, MongoDB.

EDUCATION

2010

BACHELOR OF COMPUTER APPLICATION, NSHM BUSINESS SCHOOL

- CGPA – 7.85
- Minor Project: Banking Application using .NET Technologies (C++ and SQL SERVER 2000)
- Major Project: Intranet Mailing Server using PHP & MySQL

2007

ISC (10+2), THE BHAWANIPUR GUJRATI EDUCATION SOCIETY SCHOOL, KOLKATA

- SCIENCE – 74%

2005

ICSE (10), THE FRANK ANTHONY PUBLIC SCHOOL, KOLKATA

- SCIENCE – 75%
- First position in Group Elocution in Annual Inter-House Meet, 2003
- Second position in Annual Computer competition, 2000
- Third position in Annual Science competition, 2000

SKILLS

- | | |
|--|---|
| • Ethical Hacking | • Server Administration |
| • Security Researching | • Database Administrations |
| • Languages: C/C++, Perl, Python, PHP, HTML, Java, SQL, Visual Basic, Shell script, bash, NodeJS | • Network administrations |
| • OS: Windows, Linux, Unix, Mac OS | • Security tools: Metasploit, Nessus Vulnerability Management, Qualys Guard, Accunetix, BURP Suite, Nmap, Zap Proxy, BEEF (Browser Exploitation Framework), Meterpreter, Symantec 360 |
| • Security OS: Backtrack, Kali, Parrot OS, Blackbox, Backbox, Cyberhawk | • Docker, OpenShift, VMWare Sphere |
| • HP Tools, UCMDB, Sitescope, BAC | • Nessus Home, Pro, Tenable.IO, Tenable Lumin |
| • MySQL Workbench, MonYog, SQLYog, Liquibase | |

CERTIFICATIONS

- ORACLE DBA 9i - 2009
- Ubuntu Server - 2009
- PHP & MYSQL - 2010
- RHCE (Red Hat Certified Engineer) & RHSA (Red Hat System Administration) - 2010
- CEH (EC-Council Certified Ethical Hacker) – 2011
- CHFI (EC-Council Certified Computer Hacking & Forensics Investigator)– 2011
- MongoDB – 2015
- GREM - 2016
- ECSA (EC-Council Certified Security Analyst)- 2017
- OSCP – 2018
- CCSK from Cloud Security Alliance - 2019

ACTIVITIES

- EX. Core member of Null Open Security, Hyderabad chapter
- EX. Chapter head of Raspberry Pi, Hyderabad
- Presenting & attending seminars in Computer Hacking conferences & Information Security
- Active contribution to Open-Source Projects on GitHub
- Private Home Lab for exploring, Researching, Contributing and Developing new Applications, Security Technologies & Technique.

BACKGROUND

- DOB: 7th July 1986
- Father's Name: Late. MD Nezamuddin
- Languages: English, Hindi, Urdu & Bengali
- Nationality: Indian

I hereby declare that the details given above are true to the best of my knowledge.
